CURES ECZEMA QUICKLY
New Drug, Quinine, Now Obtainable in Small Quantities.

Since its discovery one year ago, the new drug, posium, has successfully cured thousands of chronic cases of eczema, and has been found to be a most valuable remedy. Heretofore posium has been dispensed solely for the benefit of eczema patients in large jars sufficient for a month's treatment, which was found to be an inconvenience to many thousands who use it for minor skin troubles, such as pimples, bluishness, herpes, acne, scalp, complexion blemishes, itching feet, piles, etc., which require but a small quantity to cure. To overcome this, and in response to urgent appeals the dispensers of posium have been obliged to adopt, in addition to the regular two-dollar package, a special fifty-cent size, which in future may be found on sale at drug stores and other leading drug stores in Richmond, or may be ordered direct from the Emergency Laboratories, No. 32 West 25th Street, New York City. In all eczema cases posium stops itching, soothes the inflamed skin, and proceeds to heal immediately; chronic cases being cured in two weeks. In less serious skin troubles, results are seen after an overnight application. Samples for experimental purposes may still be had, free of charge, by writing to the laboratories for them.

MAKES APPEAL TO PAY OFF THE DEBT

Money Needed to Finish Paying Expenses of Recent Prohibition Campaign.

CHARTER FOR SALOON CO.
Granting of One Since State Has Gone Dry Attracts Attention. To Sell Times.

[Special to The Times-Dispatch.]
RALEIGH, N. C., June 16.—The deficit of \$1,500 in the campaign expenses of the State prohibition campaign committee incurred in directing the recent successful campaign for prohibition is still hanging over Chairman John A. Oates and his associates, and renewed appeals are made to the friends of prohibition to come to their rescue.

State Organizer R. L. Davis announces that the response to the first appeal has been frightful, in that not over ten churches responded and not over twenty individuals have come forward with small contributions. In fact, that less than \$200 has been received since the election was carried. He declares that it would be outrageous for Chairman Oates to have to bear this burden alone. So he makes a special appeal to prohibition advocates to "go down in their pockets" and wipe out this debt. He wants 500 persons to send \$1 each, 200 to send \$2.50 each, and 100 to send \$5 each.

Captain Dwyer Detailed.
Adjutant-General T. B. Robertson, of the North Carolina National Guard, is notified by the United States War Department that Captain Thomas F. Dwyer, of the coast artillery corps, is detailed by the department for service from July 20th to August 5th at Camp Glenn, Morehead, as special instructor in target firing with the new rifle range at Camp Glenn, and Captain Dwyer is said to be one of the best in the service.

Charter to Wine Company.
With the State prohibition election carried by a big majority and prohibition to be effective throughout the State January 1, 1908, the chartering of a new corporation to do a wine liquor, clear and tobacco business is remarkable. Such a corporation, The Eagle Saloon Company, of Winston-Salem, was granted a charter by the Secretary of State to-day. The capital is \$10,000, the incorporators being Frank Hurley, John F. Smith and Dr. A. W. Jones, Winston-Salem, and T. O. Balty, Thomasville.

The Main Street Pharmacy, Durham, is another corporation chartered, this having \$5,000 capital subscribed by E. C. Thomas, B. A. Battis, and F. S. Thomas.

The Green River Telephone Company, of Rutherfordton, is also chartered to construct and operate a telephone line from Rutherfordton to Green River, Polk county. This has \$10,000 capital, John C. Mill, Poe W. Eskridge, principal incorporators.

To Sell the Times.
Receiver W. H. Pace, of the company publishing the Raleigh Evening Times, announces that he will sell the plant and goodwill to the highest bidder July 16th, sealed bids to be opened at that time. The indebtedness of the plant aggregates about \$15,000.

The addition of a fourth story to the girls dormitory at the State School for the Blind here will add forty to the capacity of the institution. The work is being done during vacation, and is well advanced.

STATE FIREMEN MEET.
Large Attendance Upon Session in Wilmington—Tournament To-Day.

WILMINGTON, N. C., June 16.—The annual convention and tournament of the North Carolina Firemen's Association is now on in this city. The former was held to-day, all day being devoted to the different sessions of the convention, and to-morrow morning the tournament will be grand and auspiciously inaugurated by the usual parade, but which this year promises to be bigger and on a more elaborate scale than ever before. This is the second year in succession that Wilmington has had the convention and tournament, something without precedent, and the people of this city are thoroughly appreciative of the honor. The city is one mass of flags and bunting, and most lavish arrangements have been made for the entertainment of the visitors.

The convention opened this morning at 11 o'clock, and about every department in the State was represented. The session was opened with a fervent prayer by Rev. W. A. Snyder, D. D., pastor of St. Paul's Lutheran Church, and then Mayor William E. Springer presided. Mr. McNell was presented, and welcome received a warm response from President James D. McNell, of Fayetteville, and others. After the necessary preliminary work for organization, the session settled down to business, and the annual report of President McNell was presented, read and accepted with thanks. The report was a most interesting document, and came from a man who is one of the best known firemen in the United States. Captain James D. McNell has been a fireman, and in active service, since May, 1866, being at the time of the department of his home city—Fayetteville. At one time he was president of the National Association, and has been head of the North Carolina Association for years.

President McNell made the very pleasant report that the association is yearly growing larger, and that the interest by the members has grown to gigantic extent. He also made the very gratifying report that during the past year not a fireman was killed, or injured in North Carolina. Although some fierce conflagrations had been fought and many narrow escapes had been made. His reference to the machinery for extinguishing fires and the relief fund was especially interesting, and shows that the Tar Heel firemen intend to press their
